Certified Scrum Master®

+91 9961845598, uka.sheikabdullah@gmail.com

Objective:

Seeking the opportunity to fill in the position of Scrum Master/Technical Project Manager with a growing organization.

Highlights:

- 10 years of experience in IT industry.
- Experienced Scrum Master with a proven track record of delivering high-quality software, on-time and within budget.
- Deep knowledge of developing applications.
- Proven ability to work creatively and analytically in a problem-solving environment.

Work History:

Oct 2010 - Present

Technical Lead, InApp Information Technologies, India

- Prioritize requirements and define scope to meet market needs in a timely manner given available resources.
- Develop, maintain, and distribute (as appropriate) standard project management deliverables for the successful launch of new products and services, including: implementation plan, project schedule, project budget and variances, issues & action items log, meeting minutes, risks assessment and contingencies.
- Guiding the team in defining technical architecture of their projects, including working with them to finalize the DB schema.
- Define and coordinate the technical tasks for the development of the software and/or interfaces.
- Act as a mentor for the developers on the team.
- Educate and reinforce scrum methodology and agile framework to team members and key stakeholders.
- Ability to manage multiple projects and cross platform teams.
- Direct and lead development team from project initiation through delivery of final product.
- Tracked and managed product backlog, burndown metrics, velocity, and task breakdown.
- Communicate technical issues/decisions effectively to PM.
- Client Communication and Requirement gathering.
- Manage and motivate the project team.

Jan 2009 - Oct 2010 **Software Developer, Compvue, India**

- Coordinate with the Technical lead on current programming tasks.
- Collaborate with other programmers to design and implement features.
- Debug existing source code and polish feature sets.
- Contribute to technical design documentation.
- Work independently when required.
- Continuously learn and improve skills.
- Build efficient, testable, and reusable PHP modules.
- Solve complex technical problems and architectural challenges.

Sept 2007 - Jan 2009 **Software Developer, Gorky Software, India**

- Writing clean, fast PHP to a high standard, in a timely and scalable way.
- Troubleshooting, testing and maintaining the core product software and databases.
- Integration of user-facing elements developed by front-end developers.
- Continuously learn and improve skills.
